TOWN COUNCIL

Council Chamber,
February 3rd, 1908.

Council met in regular session
Mayor Meng in the chair.

Present—Reeve Symington, and
Councillors Alexander, Simpson, Kim-
merly, Osborne and Denison.

The minutes of the last regular ses-
sion were read and confirmed.

A communication was read from
the Canadian Municipal Journal stat-
ing that they would be pleased to sup-
ply the several alderman with a copy
of their paper for the sum of 30c. each.
Filed.

A communication was read from G.
H. Vanalstine, Chief Engineer of the
Fire Brigade, saying that he did not
approve of the present means of tak-
ing fire appliances to fires. He
thought a horse should be kept in the
fire hall. Laid on the table until later
in the evening.

The communication from the Kings-
ton General Hospital asking for aid
was taken up and discussed. Reeve
Symington was of the opinion that
the town and county were at present
doing all it possibly could towards
this institution. The county gave a
grant of \$500, and through the kind-
ness of the ladies of Napanee, this
town contributed in cash, supplies, etc
nearly \$600, which seemed to be about
all this locality could stand, especially
when the finances of the town and
county are considered.

Moved by Reeve Symington, seconded
by Coun. Simpson, that the com-
munication be filed.

Moved in amendment by Coun. Os-
borne, seconded by Coun. Denison,
that the sum of \$25 be granted. Lost.
The original motion was put and

I wish that I might talk with all sick ones about the actual cause of Stomach, Heart, and Kidney ailments. To explain in person how weak Stomach nerves leads to Stomach weakness, I am sure would interest all. And it is the same with weak Hearts or weak Kidneys. This is why my prescription—Dr. Shoop's Restorative—so promptly reaches ailments of the Stomach, Heart, and Kidneys. It is wrong to drag the Stomach or stimulate the Heart or Kidneys. These weak inside nerves simply need more strength. My Restorative is the only prescription made expressly for these nerves. Next to seeing you personally, will be to mail you free, my new booklet entitled, "What to Do." I will also send samples of my Restorative as well. Write for the book to-day. It will surely interest you. Address Dr. Shoop, Box 8, Racine, Wis. Sold by ALL DEALERS.

An Old Virginia Law.

A law passed by the grand assembly held at James City, Va., in March, 1662, was designed for the purpose of trying to prevent women from talking to excess. The law read: "Whereas many babbling women slander and scandalize their neighbors, for which their poor husbands are often involved in chargeable and vexatious suits and cast in great damages, be it therefore enacted that in actions of slander, occasioned by the wife, after judgment passed for the damages, the woman shall be punished by ducking; and if the slander be so enormous as to be adjudged at greater damages than 500 pounds of tobacco, then the woman to suffer a ducking for each 500 pounds of tobacco adjudged against the husband, if he refuses to pay the tobacco."

Queer Nesting Places.

Birds seek queer places in which to build their nests. The robin often begins nesting operations in February. Any old pot, basket or can which is lying in a corner of a garden seems to be taken possession of by robins. They even build their nests in flowerpots, on chairs, in bags and tins, old kettles and a variety of other odd places. But perhaps the most remarkable place of all where a robin built its nest was in or on a cow's tail. The tail was hanging on the wall of a butcher's slaughter house in England, and the robin built a cozy nest among the long hair at the end of the appendage.

There Yet.

Scott—My wife's mother has visited us only once in five years. Mott—That isn't bad. When do you expect her to pay her second visit? Scott—Oh, she hasn't got through her first yet.—New York Telegraph.

Then She Talked.

Reporter—Well, I've interviewed her. Editor—Did she talk without restraint? Reporter—I should say n't! She wouldn't say a word until her husband came in and told her to keep still.—Philadelphia Inquirer.

Praises Dr. Agnew's Heart Cure—
Remarkable Testimony.

We, the undersigned, have been seriously troubled with valvular heart disease: have both had fainting spells upon the slightest extra exertion. Last April, when we both were unable to do any work of moment, we began using Dr. Agnew's Heart Cure, having no faith in it but hoping it might relieve. After taking six bottles we feel almost cured. We feel compelled to send this unsolicited testimonial, with the hope that others may be benefited as we have been. Gratefully yours, T. B. Reagh, Archdeacon P.E.I., and I. D. Reagh. (2)

YARKER.

The Yarker Methodist circuit has been steadily advancing three years, under the pastorate of Rev. E. Farnsworth. Special meetings have been held at each of the appointments, crowned with success, as the church membership has largely increased. The circuit purchased a parsonage in progressive Yarker village, four years ago, a modern brick structure, one of the best in the Napaneer district. The churches on the circuit are substantial buildings in good repair, having been thoroughly renovated during the three years. The Yarker church has been repaired at a cost of \$410; the Colebrook church at a cost of \$485. The Moscow church has been extensively repaired, at a cost of \$1600, having a new iron roof, spire covered with galvanized iron, concrete platform, and new stained glass windows. On the inside, a metallic ceiling has been added, the floor placed on an incline and the seats replaced with circular ones of the latest design. The congregations have, during the three years paid the parsonage debt, as well as providing funds for church repairs, making in all \$3380, leaving the circuit practically out of debt. They have also raised the salary of the minister from \$660 to \$810.

The Finance Committee presented the treasurer's monthly statement which was as follows:

Committees	Amount Appropriation	Amount Expended	Unexpended	Overdraft
Contingent	\$ 230 00	\$736 62	\$ 506 62	\$501 02
Streets	3000 00	2572 86	627 14
Fire Water and Light	4000 00	2715 60	1284 40
Town Property	150 00	466 27	316 27

Market	25 00	8 83	16 17
Police	50 00	50 00	69
Poor and Sanitary	500 00	386 50	113 50

They also asked for further time to report in reference to the treasurer's account. Report adopted.

The Street Committee asked for and was granted further time to report in reference to the claim of Jas Boyd against the town for damages caused by his stepping through a hole in the sidewalk.

The Fire Water and Light Committee, to which was referred the request of the Electric Light Commissioners, asking for \$300 a year more for municipal lighting, reported that they had met the Commissioners, but that nothing definite had been done. Those who were present at the meeting seemed to be of the opinion, however, that the extra amount asked for should be granted. As no definite understanding had been arrived at the Committee asked for further time to report.

On motion of Councillors Simpson and Osborne the question of building a stall in the fire hall for the purpose of keeping a horse for night service, was left in the hands of the Fire Water and Light with power to act.

The placing of a whistle on the Electric Light Plant to be blown as a fire alarm at night was discussed. The question arose over the placing of a gong in home of the Chief Engineer of the Fire Brigade. The Fire Water and Light Committee were asked to get an estimate of the cost of placing such a whistle at the electric light works and report.

Mayor Meng informed the council that he had been served with a summons to appear as defendant in an action against the town for \$50 damage and costs, claimed by Mr. Jas Taylor, by falling on the slippery sidewalk recently. The Mayor stated that he had placed the matter in the hands of the solicitor. The council by motion ratified the action of the Mayor.

Coun Alexander informed the council that the assessor had asked for a map of the town for assessing purposes.

Moved by Coun. Simpson, seconded by Coun. Osborne, and resolved that the Finance Committee ascertain the cost of getting a reliable map of the town, and report at the next meeting.

Moved by Coun. Simpson, seconded by Reeve Symington, that this council

The treasurer was granted vouchers for payments amounting to \$140.74. Mr. Storms asked the council to have the weigh scales at the station repaired.

On motion of Councillors Osborne and Alexander the Town Property Committee were instructed to have the scales at the station put in good repair.

Reeve Symington speaking of the motion passed at the last regular meeting, for the forming of a Relief Association, said he had received a letter from the clerk of the city of Belleville in reference to the workings of a similar association in that city. At the beginning of each year the Belleville council placed in the hands of the association the sum of \$1500 for relief purposes, and some years the association has had a surplus as high as \$200, after having taken good care of their poor for the year. The reeve was of the opinion, that, if Belleville, with three times the population of Napanee, could in this manner take care of its poor for \$1500 a year, Napanee should get along nicely on \$500.

INCOME ASSESSMENT.

On Monday evening the town council passed the following resolution,

That this Council instructs the Assessor to procure and use the forms prescribed in Sec. 18 of the Assessment Act.

EXPLOSION AT TWEED.

The Ontario Powder Co's Plant Partially Blown Up. — The Shock Felt at Napanee.

Tweed, Feb. 4.—A terrible explosion which broke well nigh every window in town, and caused scenes of excitement, occurred a mile east from here shortly after seven this morning, when the powder mills of the Ontario Powder Company, comprising from twelve to fifteen buildings, were utterly destroyed. It is fortunate there was no loss of life. The men in the works had only been at their occupation a few minutes when one of the big vats of nitric acid was observed to boil over. It ate its way into the floors and soon the wood caught fire. For the flames to reach the nitro glycerine mixer took only a few minutes. A warning was shouted and the men ran for their lives, never pausing until with an awful deafening roar the buildings were torn from their foundations, lifted up high in the heavens, and completely demolished.

There was considerable of a panic in the town for a little while until some of the powder makers arrived on the run with the glad intelligence that all had been saved. As it is, there will be considerable inconvenience in town, if not suffering, as with all the windows broken, and the thermometer much below zero, it is impossible to keep the houses warm.

Much perishable food stuff has been frozen in the stores, and rendered absolutely useless, the plate glass fronts having been smashed. Business is practically suspended, and will be for some days.

The churches of the town are also without windows, and as the glass is somewhat hard to replace, there will not likely be services next Sunday.

The factory of the Steel Trough and Machine Company, which is situated a short distance away from the powder mills, had its big chimney blown down as well as the glass broken.

Across Stoco Lake, a distance of six or seven miles, is the little village of Stoco. It is reported that there was much damage done to windows there, and at Madoc, sixteen miles away, there are some plate glass fronts reported broken.

The buildings of the Powder Company were all wrecked most of them being completely blown to atoms. The worst explosion took place in the building where the blasting gelignite cartridges are made. The company had just started the manufacture of this powerful explosive, having installed a lot of expensive machinery in December last. This explosive is 50 per cent, more powerful than ordinary dynamite. It is of the consistence of tough paste and comprises about 7 per cent of nitro cotton to 93 per cent nitro glycerine, and as nitro glycerine congeals at 43 degrees Fahrenheit and freezes at 40 degrees Fahrenheit, it is necessary to maintain an even temperature.

The cause of the explosion is said to be the fact that the extreme cold weather congealed the nitro glycerine, and it entered the mixer and caused

nitro glycerine, and as nitro glycerine congeals at 43 degrees Fahrenheit and freezes at 40 degrees Fahrenheit, it is necessary to maintain an even temperature.

The cause of the explosion is said to be the fact that the extreme cold weather congealed the nitro glycerine, and it entered the mixer and caused the nitric acid to boil and pour over the floor, thus setting the building on fire. The mixers seeing the danger ran through the works calling to the men to run for their lives. The men needed no second warning, but rushed to places of safety, many of them in their shirt sleeves, and as the thermometer registered well below zero, many of them had ears and fingers frozen.

The escape of the men dwarfs into insignificance the great property loss, and a spirit of thankfulness prevades the town as reports are received that the loss of life has occurred.

The shock of the explosion was plainly felt in Napanee and many were the conjectures as to the cause of the shock. Many people thought it was an earthquake. One of the post office clerks thought the heater had burst and sent a plumber down cellar to examine the boilers.

M. S. MADOLE.

CRUELTY IN PERSIA.

Queer Things About the People of That Queer Country.

According to the authors of "Queer Things About Persia," cruelty is common there. The executioner cuts throats in a public square, and the spectacle excites little interest. Criminals are sometimes crucified and sometimes walled up alive. Women for certain offenses are cast headlong from a tower. The Persian is a gentleman of surpassing courtesy and politeness, but say these writers: "The same man who drops rose petals under your feet in order to make them avoid the hardness of the road will not hesitate to make you suffer the most cruel tortures. He delights in the murmur of the ruyet in the moonshine, but the sound of blood flowing from an open wound has also for him its fascination. The singing of the nightingale fills him with rapture in the night, but he gulvers with pleasure at the cry of pain from a victim." Also they affirm that lying is an institution and no one condemns it. "The Persian does not consider a lie a sin. He thinks that we have a bad opinion of lying because we do not know how to lie, and if he shows an unbounded confidence in everything the Europeans say it is chiefly because he thinks we are totally devoid of the gift."

Sustaining His Reputation.

A story is told of the Prince de Conti, whose reputation for cruelty stood high. He was going to mass with some ladies when his bailiff asked for instructions concerning a poacher who had just been caught on the grounds.

"Give him 100 stripes and imprison him in a dungeon for two years," was the answer.

One lady, horror stricken, went to the bailiff afterward, but he only laughed in her face.

"The prince only said that to keep up his reputation. His royal highness came to me directly after mass and begged me to see that the poor wretch was only sent away from the neighborhood for two months and that his family was well looked after during his absence."

Bridge Whist.

At least 60 per cent of the game of bridge lies in the make. A poor player loses tricks and often the game and rubber by his play, but so many hands occur in which there is really no play that such losses are comparatively unimportant compared with the havoc wrought by an injudicious maker, for constantly his decision is invoked when the safety of the game or its success lies in his judgment of the value of his hand. To choose between hearts or diamonds and no trumps, to select clubs rather than spades, to know when a five card suit is safe and when one of four cards should be chosen, above all to keep an unrelaxing attention upon the state of the score, with its shifting demands—all these are the sterling qualities of a good maker. Once sensible that you are lacking in any such respect you will find your game appreciably strengthened by attention and study.—"Good Bridge."

enrichment of the party-heeler and the men in power

How the Tories Ruled.

Timber limits by the thousand miles were divided among the politicians and their hangers-on, without price or consideration, excepting only generous contributions for campaign purposes, to keep in power the unprincipled men who grew rich at the public expense.

The lands of the people were handed over to corporations by the millions of acres at a time, without a stiver going into the public treasury.

Money was borrowed by the million (nearly one hundred millions altogether) to provide the means to prosecute public works, which might have been constructed with money realized by the sale of lands, and the people were burdened with taxation to pay interest on accumulating public debts.

Hundreds of thousands of dollars were divided with contractors who were given iniquitous jobs at high prices upon the understanding that they gave back part of the loot to enrich the swelling corruption fund.

There existed in the country for years under Conservative rule, a saturation of thievery during which ministers of the crown, politicians, contractors, and rascals of every description accumulated riches and the people became poorer.

Large contracts involving vast sums of money were given to the highest tenderer instead of the lowest. The money was borrowed, it came easy and went easier, but the campaign fund grew apace.

What Changes Liberals Made.

The Liberal Government made the sale of timber competitive, and the proceeds went into the treasury.

No lands were given to Railway corporations, but the proceeds of the sale of lands provided money for useful public works.

Contracts were given to the lowest tenderer and the interests of the people were safeguarded at all points.

Trade increased ten fold, revenue resulted from a revised tariff, public works were constructed from surpluses gained by careful regard to expenditure—improvements made in transportation provoked trade, waterways were increased and enlarged, harbors deepened, and business increased on every hand as the result of wise laws. The western provinces were peopled by settlers and land increased in value and trade between the east and the west grew until it reached its present proportions.

Promises made to the people by the Liberals have been faithfully kept and the prosperous condition of affairs existing to-day, compared to the previous conditions of 1896 are the incontrovertible evidences of intelligent administration.

The people are asked to ignore these facts and hand over the government to Conservative of unsavory record. The recent by-elections indicate that nothing of the kind will be done.

Suppose Tories Win Power.

Who would have charge of the departments of the government if the Conservatives were returned to power? One of the recognized leaders of the Conservative party is Geo. E. Foster. This politician occupies a seat next his leader in the House, Mr. Borden, and never misses an opportunity of accusing the Liberals of crimes, sufficient, according to his view, to cause the people to retire the Liberal government. Let us consider this man a moment, and reflect upon his qualification as a Minister of the Crown.

His former chief, Sir Mackenzie Bowell, denounced him publicly as a "traitor."

His party paper described him as "Judge I-carion."

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley, of Birmingham, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its

Interesting Forecast.

Mr. H. J. Logan, of Cumberland, N. S., made an interesting contribution to the debate by demonstrating that the building of the Georgian Bay canal would provide a market for Nova Scotia coal, which could, via the canal, be delivered cheaper than it is now supplied from points in the United States. Mr. Logan expressed the opinion that the Georgian Bay canal is one of the greatest national questions before the country, and of interest not only to the residents of the Ottawa Valley, but also to those of the Maritime Provinces.

In support of his advocacy of the canal Mr. Logan quoted the expressed opinions of Sir John Macdonald, Hon. Alex. Mackenzie, Sir William Van Horne, Walter Shanley, engineer, Curtis Clark, ex-president of the American Society of Civil Engineers, and the "Engineering News."

Mr. Logan said that Ontario consumed 4,000,000 to 5,000,000 of tons a year of coal, or more than was raised in Nova Scotia, and yet of this amount only a few hundred tons was purchased from Nova Scotia. Mr. Logan clearly demonstrated that with the Georgian Bay canal in operation coal could be delivered to interior points in Ontario cheaper than it could be purchased from American sources.

Ontario to day, said Mr. Logan, is paying from \$2,500,000 to \$3,000,000 a year in duty for American coal. If it could be made possible by the construction of this Ottawa and Georgian Bay canal route to cut that amount in half, you are saving from \$1,250,000 to \$1,500,000 per year to the Province of

POLITICAL NEWS!

With the time for a general election approaching, bye-elections are significant of the state of public opinion. Within a few weeks there have been seven bye-elections as follows: In Ontario, four; Centre York, North Wellington, Ottawa, South Huron. In Quebec, three, Nicolet, Labelle, Stanstead. The government candidate was returned in each case, and in South Huron the Liberals gained the seat—a Conservative having formerly occupied it.

How the People Decide.

There is a reason for this, and the reason is not hard to find. Two considerations mainly are before the people—the first is—the record of the Liberal administration such as to entitle the government to continued confidence? The second—Who are the men who would be placed in power, should the Liberals be defeated, and what is their record?

As to the first, the record of the Liberal government since 1896 is written large in history. Consider the conditions in Canada in 1896 after eighteen years of Conservative rule, and compare them with the conditions today, after eleven years of Liberal rule. Examine into the work of every department of the government, making no exceptions, and it will be found that giant strides in progress have been made. Examine into the regulations now in force with respect to the great assets of the people, timber, coal, and lands, and it will be found that under Conservative rule the property of the people was not administered in their interest or for their benefit, but for the

people to retire the Liberal government. Let us consider this man a moment, and reflect upon his qualification as a Minister of the Crown.

His former chief, Sir Mackenzie Bowell, denounced him publicly as a "traitor."

His party paper described him as "Judge I-carior."

A Royal Commission stigmatized him as a gambler and speculator with trust funds of the widows and orphans of the I.O.O.F., and found him guilty of engaging in illegal operations for his own benefit.

History shows him to be politically unsafe, the familiar of grafters, encouraging political parasites who fastened on the public chest.

He possesses some of the attributes of a Demosthenes, and the moral fibre of a Pecksnuff.

Public opinion regards him as a hypocrite, employing his talents to climb into power, and without the moral courage to accept the popular verdict already rendered against him.

The Conservative party of Canada can find none worthier to occupy second place in their ranks than the hero of the nest of traitors, the man condemned by Royal Commission.

Other Would-be Ministers.

Other leaders in the party, Messrs. Fowler, Lefurgy, Bennett, Pope and others, would expect to be taken into the Cabinet of a Conservative Government for their services rendered in perpetuating the campaign of scandal. These are the gentlemen who entered upon a campaign tour in the west and used the opportunity to acquire thousands of acres of lands from the C. P. R., the money to finance them being borrowed through the instrumentality of Mr. Foster, who lent them trust funds contrary to law, thus jeopardizing the interest of thousands of widows and orphans.

There are the men who would govern Canada, should the Liberal Government be defeated. Into the hands of these gamblers, and speculators with other people's money, would the great affairs of the Dominion be committed should the Conservatives gain power.

It is admitted that men of questionable reputation are unfitted to fill exalted public office. This is the position assumed by the Conservatives when attacking the government. It therefore behooves the people to keep in mind that at least two of the leading Conservatives—Messrs Foster and Fowler, have violated certain social conventions, which disqualified both as advisers of His Excellency. These disqualifications have been set out in plain words publicly, and have never been denied.

These men have been weighed in the balances and found wanting.

Expensive Tory Junketings.

The Conservatives made a vicious attack on the Government, charging that the expenses of ministers to the Colonial Conference were excessive, and Mr. Brodeur was flayed for taking with him a private secretary. Parliament voted \$4,000 each for the expenses of the ministers, two of whom, Hon. Mr. Fielding and Hon. Mr. Brodeur, also went to Paris to arrange the new French treaty. Mr. Brodeur, in addition, was engaged in an investigation of the latest iceboat with the view to selecting the proper type for use in Canada.

How will these figures compare with the money expended by Messrs. Foster, Tupper and Thompson, who represented Canada on the Behring Sea Commission in Paris in 1892-93. Each of these gentlemen was accompanied by a private secretary, and they also had with them a messenger. These economical Conservatives on this occasion incurred a bill of \$22,355.04, and it is worthy of remark that Tupper was also the agent of the British Government, and in addition to the sum of \$6,816.54, included in above figures for himself and private secretary, the British Government paid all his expenses as such agent.

The people of Canada are invited by the Tories to dismiss a Government on the ground of extravagance, when his story proves that in identical matters they, the Tories, squandered money with a recklessness almost criminal, and should such a misfortune occur as their return to power, there would be a repetition of chicanery and loot which distinguished former Conservative Governments. The affairs of the Dominion are now in capable hands, and they will never be committed into the hands of gamblers, speculators, spend-thrifts, rakeoffmen and slanders.

Georgian Bay Canal.

The Georgian Bay Canal formed the subject of a lengthy discussion in the House—Members from both sides joined in the debate which has not yet been concluded. Mr. McCool, Nipissing, opened the debate and presented a forcible plea for the building of the canal, supported by figures of a particularly comprehensive character. He was followed by Mr. White, Conservative of Renfrew, who practically endorsed the position taken by Mr. McCool.

chased from American sources.

Ontario to day, said Mr. Logan, is paying from \$2,500,000 to \$3,000,000 a year in duty for American coal. If it could be made possible by the construction of this Ottawa and Georgian Bay canal route to cut that amount in half, you are saving from \$1,250,000 to \$1,500,000 per year to the Province of Ontario, and that will more than half pay the interest upon the whole cost of this great work through the French river and down to the city of Montreal.

Return Cargoes Assured.

Mr. Logan drew attention to the fact that American coal now must break bulk when it reaches the lakes, which adds to the expense of transportation, but a service between Sydney, N. S., and Fort William could be performed without breaking bulk. It would also mean return cargoes of iron ore, which is needful, which is useful, to the great steel works of Sydney and North Sydney. It would mean that in Nova Scotia we could have established large flour mills for the grinding of wheat into flour, because the wheat could be brought direct in return cargoes from Fort William to Sydney.

In concluding his speech, Mr. Logan eloquently advocated the building of the canal, which, he said, was a project likely to be beneficial to the whole Dominion. It would add one more link to the chain which binds the country together, it would mean an increased interchange of trade between Ontario and the Maritime Provinces.

Original Documents.

Sir Wilfrid Laurier brought down the documents which Mr. Ames appeared so anxious to see and explained that under the rules, should any member object, Mr. Ames could not renew his motion, and therefore might not secure the bringing down of the documents, but Sir Wilfrid was willing to facilitate the object Mr. Ames had in view and laid the papers on the table.

Japanese Question Again.

Another day was given to the discussion of the Japanese question, and nothing new was elicited excepting the statesmanlike utterance of Sir Wilfrid Laurier, that when the action of the Government is known in British Columbia, when it is properly understood, when they know of the effort which the Government made to bring about the result which they want to have brought about, they will be satisfied that this result has been brought about, not by hostile legislation, but by friendly conciliation.

The object of the Opposition is to keep this subject in a ferment, whereby political capital may be made in British Columbia, but the lofty utterances of the Prime Minister will more than offset anything they can do in this connection.

Inferior Representatives.

If the Conservatives in the House are a fair average of the party, it is safe to say that they will never succeed to power. There is no material behind Mr. Borden which is of the slightest use to him or the country. How some of the men secured election is beyond comprehension. Upon ordinary public questions they are deficient in knowledge. As to Canadian history they are dense and uninformed. Questions of political economy are to them an unknown quantity. They enter upon debate without study, lacking information, without any experience, and not intelligence enough to make themselves understood. Upon a subject involving legislative or general knowledge they speak but to accentuate their ignorance. They are at home only in scandal, and there they find themselves upon familiar ground.

If any considerable number of the people of Canada could spend a few hours in the House of Commons, they

Cough Caution

Never, positively never poison your lungs. If you cough—even from a simple cold—you should always heal, soothe, and ease the irritated bronchial tubes. Don't blindly suppress it with a stupefying poison. It's strange how something finally comes about. For twenty years Dr. Shoop has constantly warned people not to take cough mixtures or prescriptions containing Opium, Chloroform, or similar poisons. And now a little late though—Congress says: "Put it on the label, if poisons are in your Cough Mixture." Good! Very good! Hereafter for this very reason mothers, and others, should insist on having Dr. Shoop's Cough Cure. No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance then, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and note the difference. No poison marks there! You can always be on the safe side by demanding.

Dr. Shoop's Cough Cure

would bear one Conservative after another arise in his place and repeat arguments advanced only by their leader, Mr. Borden, and their sub-leader, Mr. Foster. They advance no original ideas, add nothing to the general information on the matter under discussion, but they read letters and papers that have been read before by a preceding speaker, and their speeches are made up of cupious extracts from documents which have already been quoted to the House. How such an aggregation could ever expect to gain the confidence of the people of Canada is a mystery.

Either the Conservative party has sent to the House of Commons its poorest specimens, or the party has not within its membership enough men of intelligence to make a presentable showing in the House. Whatever the cause, those men who have not been publicly discredited, lack every qualification of intelligence which a government must have on the treasury benches. Some Conservatives may adorn the back benches and vote automatically, but for any further use they are to the people of Canada they may as well have remained at home.

BARBER'S ITCH

Cured in 30 Minutes.

A single application of Woolford's Sanitary Lotion will usually cure a severe case of Barber's Itch. It at once destroys the microbe causing the ailment and the patient is accordingly free from the disease within a few moments. Of course a few days must elapse before the skin can heal and become as smooth as formerly. This remedy also cures instantly, itch, mange, prairie scratches, and every form of contagious itch on human or animals. (1)

Under Advisement.

A newly elected squire in Wisconsin was much elated by his honors, but was not sure that he could carry them gracefully, says a writer in the New York Sun. So he haunted the courthouse to gather stray crumbs of wisdom from higher courts which sat there.

One day he sat in judgment on his first case, and when the testimony was all in and the arguments made he said: "The court takes this case under advisement until next Wednesday, when it will render a verdict in favor of the defendant."—Youth's Companion.

HIS SWEET REVENGE.

Upon Inheriting a Fortune Johnson Destroys His Worst Enemy.

"And to my beloved nephew, Hiram Johnson, I bequeath the sum of \$100,000."

"What—what's that?" gasped the nephew.

"To my beloved nephew, Hiram Johnson," repeated the lawyer who was reading the will, "I bequeath the sum of \$100,000."

"Do—do you mean to say that I am now worth all that money? And do you mean to say I can now throw up my job at Keepemdown & Kickem's?"

"You can, sir."

"And that—and that I won't have to leap out of bed after this when the alarm clock goes off?"

"A man of your wealth, sir, can sleep all day," replied the lawyer as he held out his hand. "Allow me to congratulate you."

But Mr. Johnson waved him back and stood like one dazed for a few moments. Then he reached for his hat and ran out the front door and dashed up the street. Thinking the good fortune had affected his brain, the lawyer hastened after him, and he was soon joined by others in the pursuit. Hiram made straight for the little room in the boarding house he had so long called home, and as he rushed up the steps four policemen and a score of men, women and children were at his heels. When the officers had succeeded in breaking open the door that Hiram had closed and locked after him, he had an ax in his hands and was pounding something to pieces on the floor of the room.

"Poor fellow, he has gone mad," remarked one of the policemen.

"You've got another guess coming," chuckled the man who had just inherited a fortune as he jumped up and down on the wreck he had made. "I'm only knocking the life out of that blamed alarm clock that has been getting me up at daylight every morning for the past ten years."—Judge.

MADNESS OR DEATH.

The Inevitable Fate That Awaits the Absinth Tippler.

What is absinth? It is prepared by pounding the leaves and flowering tops of various species of wormwood, star anise root, sweetflag root, leaves of dittany and other aromatic plants, and steeping them in alcohol. After eight or ten days the mixture is distilled, and oil of anised or some similar essential oil is added. This is the method of producing the genuine absinth, but it varies usually in the direction of cheapening production and increasing profits. Poisonous wood alcohol is used for macerating the vegetable ingredients, and inferior and often injurious herbs are employed. These do not always produce the much desired greenish opalescence, and turmeric, indigo, sulphate of copper and other coloring matters are employed. The consequences of regularly drinking even carefully prepared absinth are in the end ruinous to mind and body. The main difference between the various qualities of the liquor is the rapidity with which deleterious effects are produced. A man can go on drinking the better qualities a little longer before he becomes a mental and physical wreck; that is all. And, whether one drinks to excess or only takes a regular daily dose, the end is the same. The sequence of events and their duration only are different. In the first case the large doses of the liquor necessary to produce any effect speedily render the victim unable to eat food. He is tortured by an unquenchable thirst. Hallucinations speedily follow.

Clever With the Cards.

Some years ago a certain county jail was undergoing extensive alterations, during which time a gang of pickpockets, four in number, were arrested one market day. Owing to the alterations the lot were confined for a time in one cell, but were placed under strict surveillance, the care of them being specially intrusted to the sergeant. The day after during his rounds he spied them playing cards, when he promptly opened the door and summoned a fellow constable, on whose arrival the cell and the prisoners were most carefully searched, but no cards were found. However, the card playing still continued until the day on which the pickpockets were to be sent to the assizes for trial. Then the superintendent, a very kind man and a great favorite with every one, asked them as a favor to tell him where they had hidden the cards. They told him that as soon as the sergeant and his comrade entered their cell they stuck the pack in his pocket and picked it again before he left, as a proof of which they presented him with the much used pack

A Bride's Dilemma.

A humorous romance is reported from Natal, where a youthful Hindoo bride was recently called upon to choose between her husband and her jewels. The case came before the Durban police court in the first instance, where the bride's parents, says the Natal Mercury, accused her husband of abducting her while under thirteen years of age. The bride, however, claimed to be eighteen, and the magistrate dismissed the case. Outside the court a tug of war took place between the two parties for the possession of the bride, in the course of which it appeared that what her parents particularly desired was not herself, but her jewelry. A sergeant of police then sat in judgment and decided that the jewelry belonged to the parents, and the girl must choose between her husband and her bracelets. After some cogitation she chose the husband, who promptly unfastened the bangles from her arms and handed them to her parents.

Babel, now called Birs Nimroud, built at Babylon by Belus, was used as an observatory and as a temple of the sun. It was composed of eight square towers, one over the other, in all 670 feet high, and the same dimensions on each side of the ground.

The Red Cross.

The red cross was chosen as the badge of the humane society out of compliment to Switzerland, the design, with the colors reversed, being the Swiss national flag. At the Geneva convention in 1864 the nations decided upon a common flag and badge for hospitals, surgeons, etc. The red cross was then chosen.

India Rubber Bait.

According to a Troy fisherman, the latest triumph of Yankee genius is an india rubber fish worm. It is said to be a remarkably good imitation of the common earth worm, is indestructible and in actual use proves as alluring to the fishes as the genuine article. The old fisherman will be quick to see its advantages. One can equip himself for a day's sport without digging over a whole garden in search for bait. A handful of india rubber worms will last him a whole season, and there will be no necessity for pulling up the line every few minutes to see if the small 2y nibblers have left the hook bare.—St. Louis Republic.

"FRUIT-A-TIVES" SAVED HIS LIFE

Mr. Dingwall was Superintendent of St. Andrews Sunday School in Williams town for nine years and License Commissioner for Glengarry—and Tax Collector for Charlottenburg—for fourteen years continuously. Read how strongly Mr. Dingwall comes out in favor of "Fruit-a-tives."

Williamstown, Ont., April 5th., 1907.

I have much pleasure in testifying to the almost marvellous benefit I have derived from taking "Fruit-a-tives." I was a life long sufferer from Chronic Constipation and the only medicine I ever secured to do me any real good was "Fruit-a-tives." This medicine cured me when everything else failed. Also, last spring, I had a severe attack of bladder trouble with kidney trouble, and "Fruit-a-tives" cured these complaints for me, when the physician attending me had practically given me up. I am now over eighty years of age and I can strongly recommend "Fruit-a-tives" for Chronic Constipation and bladder and kidney trouble. This medicine is mild like fruit, is easy to take, but most effective in action.

Trimnings.

The other day at a golf club in Scotland a minister of the kirk was reproved by an elder in his church for using high flown words respecting a bad stroke he had made, and the minister replied:

"Weel, Dauid, I was nae sae mich swearing as merely embellishing my feelings."

Shaky Logic.

"You certainly told me to embrace my privileges."

"Well, but I didn't tell you to embrace my daughter."

"No. But to embrace your daughter is a privilege."—London Express.

Hugo and Verdi.

Verdi labored long before he persuaded Victor Hugo, who was vexed that the tragic beauties of his "Le Roi S'Amuse" had been turned into operatic effects, to attend a performance of "Ilgoletto." He succeeded at length, and Hugo sat in the box with the composer and listened to the opera. But not a word did he speak. Verdi's impatience got the better of him, and he asked:

"Well, what say you—about the quartet, for instance?"

"Show me a way in which four persons can be permitted to speak simultaneously," replied the poet, "and I will write something more beautiful than your quartet."

Early Dentistry.

The art of dentistry was practiced among the Egyptians and Etruscans, and there are evidences in mummies and skulls that in very ancient times teeth were filled and efforts were made to supply the loss of natural by artificial teeth. The first writer on the treatment of diseased teeth was Galen. The science was introduced into America by John Greenwood, who established himself in New York in 1788. In 1790 and again in 1795 he carved in ivory an entire set of teeth for General Washington.

Nature and Man.

Huxley was once talking to Sir William Gull about the healing power of nature. "Stuff!" said Gull. "Nine times out of ten nature does not want to cure the man. She wants to put him in his coffin."—London Telegraph.

Look Into Space.

A young man whose eyes had been troubling him consulted a New York oculist. "What you want to do," said the specialist, "is to take a trip every day on the ferry or in New Jersey, Long Island—any place where you can see long distances. Look up and down the river, across fields or, if the worst comes to the worst, go on the top of a skyscraper and scan the horizon from that point. The idea is to get distance. You use your eyes a great deal and always at close range. You can't use them any other way in town. Even when not reading or writing the vision is limited by small rooms and narrow streets. No matter in what direction you look, there is a blank wall not far away to shut off sight."

Oldest British Holiday.

The Saturday afternoon is the oldest British holiday. It originated in the eleventh century, when an edict of King Canute enacted that "every Sunday be kept from Saturday noon to Monday's dawn."

A Sign of Rain.

It is always a sure sign of rain when horses and cattle stretch their necks and snuff the air for a long time.

The Diamond.

A diamond is nothing but carbon, almost absolutely pure. If a diamond be raised to a white heat in the absence of oxygen it turns into a black mass, which is virtually the same as a piece of charcoal. Diamonds which are not absolutely white owe their tinge of color to the presence of oxides of various metals, such as iron.

Pulque.

It is estimated that the residents of the City of Mexico drink 75,000 gallons of pulque daily.

Table Linen.

The best laundresses give their table linen little if any starch, but iron it while it is quite damp, which makes it just stiff enough. Hot water should never be used in laundering fine table linen or embroidered dollies. Cold water and pure white soap containing borax will preserve their whiteness and beauty.

Babel.

Babel, now called Birs Nimroud, built at Babylon by Belus, was used as an observatory and as a temple of the sun. It was composed of eight square towers, one over the other, in all 670 feet high, and the same dimensions on each side of the ground.

Alfred de Musset.

Alfred de Musset fell in love with George Sand, and when she tired of him, as she did of every one else, he took to absinth and soon succeeded in drinking himself to death.

Sorrel Juice.

West Scotland is devoted to sorrel juice, and there isn't a village along the whole of the west Scottish coast where "sollie" is not to be had. It is harmless enough, but not to be recommended to any one with a weak stomach. It can be bought anywhere for about twopence a pint, and every little village grocer keeps a cask or two of "sollie."

COWBOYS' BOOTS.

Why the Plainsmen Want High and Sharp-Pointed Heels.

In Olathe, Kan., there is a factory which makes 200 pairs of cowboy boots each week. Each pair of these boots is made to order. The company has a catalogue, which it sends to the cattle ranches throughout the southwest. It tells the cowboys how to take measurements of their own feet. These are sent to the factory and the boots made and sent out.

A cowboy boot is in a distinct class by itself. The leg must be decorated with fancy lines and curves sewed into the leather, and, above everything else, the heel must be at least two inches high, must curve inward from the back, and the bottom of the heel must be very small.

A cowboy takes especial pride in two things—his hat and his boots. He often pays \$50 for his hat, and the best of the cowboy boots cost from \$8 to \$16. The ordinary shoemaker cannot make boots to suit a true cowboy; he cannot get the heels right, and so the cowboy sends away for them and pays a big price and express charges besides.

The high heels prevent the boots from passing through the stirrups, and they are also a brace when on the ground roping an animal. As the steer pulls to get away the cowboy sinks his sharp heels into the sod, and this prevents him from slipping.—Kansas City Star.

How the Timber Goes.

An idea of the rapidity with which the timber is disappearing from some sections of Pennsylvania can be obtained from the following figures, which refer to the timber cutting on the Hicks run tract in Clearfield county: Original size of tract, 9,000 acres; timber cut the first two years, 3,000 acres; still standing, 6,000 acres; amount of timber cut, 50,000,000 feet; amount standing, 200,000,000 feet; daily capacity of sawmill, 200,000 feet; daily shipments, fifteen carloads; amount of timber in Hicks run yard, 6,000,000 feet; time of operation, two years; estimated time to cut standing timber, four years; number of men employed, 800 to 1,000.

Prophetic.

Achilleon, the beautiful palace built for the late Empress Elizabeth of Austria at Corfu, at a cost of \$5,000,000, has been purchased by a Swiss-German syndicate, which will convert it into a hotel and sanitarium. The palace, which is of pure white marble, was designed by the Italian architect S. Carito. It contains 128 rooms and a chapel, situated in fine grounds planted

REMARKABLE INVENTION FOR THE CULTURE OF HAIR

CULTURE OF HAIR

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored through the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

60 DAYS' FREE TRIAL! The Company's Guarantee.

AN EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during the trial period.

The eminent Dr. I. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles their roots, without resorting to any irritating process, the problem of hair growth would be solved. Later on, when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable. An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

Russia's Wheat.

Russia produces eight bushels of wheat to the acre and might produce twice or three times that quantity if the cultivation were as careful and systematic as in Germany or France.

Trees.

Trees which grow on the northern side of a hill are said to be much more durable when converted into furniture than those which grow on the southern side.

"Would you prefer to have your son a rhetorician or an athlete?" "A rhetorician," answered Farmer Cornstossel. "A good one can make the average person look like a mollycoddle without running any risk whatever of physical punishment."—Washington Star.

RINGWORM STUBBORN CASE HEALED BY ZAM-BUK.

The most troublesome and obstinate of all scalp troubles is Ringworm. Mrs. H. Girdlestone of 106 Rawdon St., Brantford, Ont., says: "My daughter had ringworm very bad, so bad that I was compelled to have her hair cut off. I obtained a preparation from the druggist to paint the sores, but instead of curing, the Ringworm developed into nasty sores matting and smelling badly. I saw Zam-Buk advertised in the newspaper and immediately sent for a box. After several applications I could see a great improvement, and as I kept up the Zam-Buk treatment daily the disease was soon checked. The nasty sores were thoroughly cleaned and healed and all trace of Ringworm banished from the child's scalp in a few weeks after commencing with Zam-Buk. I cannot recommend Zam-Buk too highly. Zam-Buk cures cuts, burns, chapped hands, cold sores, itchy ulcers, eczema, running sores, catarrh, piles, bad legs, rheumatism, neuralgia, sciatica, abscesses and all diseases of the skin. Of all druggists and stores. 50c., or post-paid upon receipt of price, from Zam-Buk Co., Toronto. 6 boxes \$2.50.

has been purchased by a Swiss-German syndicate, which will convert it into a hotel and sanitarium. The palace, which is of pure white marble, was designed by the Italian architect S. Carito. It contains 128 rooms and a chapel, situated in fine grounds planted with 25,000 rare rose trees. In 1896, when the empress left her palace for the last time, it is said that she burst into tears and said to one of the ladies of her suite, "Something in my heart tells me that I shall never return here again." She was murdered at Geneva soon after.

India Rubber Bait.

According to a Troy fisherman, the latest triumph of Yankee genius is an India rubber fish worm. It is said to be a remarkably good imitation of the common earth worm, is indestructible and in actual use proves as alluring to the fishes as the genuine article. The old fisherman will be quick to see its advantages. One can equip himself for a day's sport without digging over a whole garden in search of bait. A handful of India rubber worms will last him a whole season, and there will be no necessity for pulling up the line every few minutes to see if the small nibblers have left the hook bare.—St. Louis Republic.

Sir Isaac Newton's Epitaph.

Sir Isaac Newton's epitaph runs, "Isaacum Newton, quem immortalem, testatur tempus, natura, coelum, mortalem hoc marmor fatetur" (this marble acknowledges Isaac Newton mortal, to whose immortality time, nature and heaven bear witness).

Scotch Cannibals.

St. Jerome states that he saw Scotchmen in the Roman armies in Gaul who ate human flesh regularly, esteeming it as a great delicacy.

Eggs and Beef.

Very common is the belief that an egg is as good as a pound of meat. If you feed yourself on eggs according to this absurd theory, you will simply shrivel up into skin and bone. The value of an egg is its weight in good beef, so that it would take eight eggs of the average size to supply the place of a pound of meat.

The Canary.

Occasionally your pet canary bird should be fed with a hard boiled egg, chopped fine and mixed with cracker crumbs, giving it not more than a thimbleful of the mixture at a time.

The Hoop of Ireland.

In Ireland the harp was invested with a sort of prophetic power. One tradition relates that at a feast given to the O'Neills by the lords of the English pale an Irish bard was warned of intended treachery by his harp, on which he could play nothing but a wild war tune when endeavoring his best to enliven the festival.

Lightning is most destructive in level, open country. Cities, with their numerous projections and wires, are comparatively exempt.

PE-RU-NA CHEERFULLY RECOMMENDED FOR COLDS AND CATARRH.

A Prominent Canadian Gives His Experience With the World-Famous Remedy For Catarrh.

Chronic Catarrh Always Begins With An Ordinary Cold.

So Says Dr. Hartman, the Greatest Living Authority On Catarrhal Diseases.

C. H. Parker, Ex-Warden of Compton Co., Quebec, has been mayor of Scottstown for a number of years. He is an influential resident in Scottstown and widely known.

He writes concerning Peruna. Read his letter below:

C. H. PARKER.

"I had several attacks of colds from time to time and finally a severe attack developed into catarrh.

"I was advised to use your celebrated catarrh remedy, and after taking three bottles I find myself completely cured, and I no longer suffer from catarrh or colds.

"I can cheerfully recommend Peruna for colds and catarrh."

If Peruna had no other medicinal value than the promptness with which it relieves common colds, it would be well worth while for any family to keep it in the house constantly.

CURE COLDS—PREVENT CATARRH.

an indefinite time. Catarrh is essentially a chronic condition and does not leave except something is done to relieve it.

What should be done when a person catches cold is to take a few doses of Peruna.

Taken at the onset, Peruna would break up the cold and prevent all the train of symptoms which usually follow.

But, even in cases where the cold has been neglected and hoarseness or a cough has developed, Peruna can be relied upon to give prompt and permanent relief.

The frequency of coughs and colds in the winter makes Peruna a popular remedy for these ailments.

A number of the best people of various countries have given testimonials as to the value of Peruna in such cases.

Followed Dr. Hartman's Advice—Restored to Health.

Mrs. Samuelle Vigneau, Avre au Berd, Isle de La Magdaline, Canada, writes:

"I write to tell you that I am perfectly well. I took only three bottles of your Peruna according to your advice and the directions in your book and it restored my health."

The Judge Raised, but the Culprit Promptly Called.

A correspondent sends in the following account of an incident which occurred in his presence in a Kentucky courtroom:

Under the laws of Kentucky the penalty for gaming is a fine of from \$20 to \$50. Judge W. W. Jones was holding a term of circuit court, and when the case of the commonwealth of Kentucky against Daniel Cross was called he asked Daniel if he had a lawyer to defend him. Daniel said he had not, and Judge Jones asked him what he wanted to do about his case, which was a charge of gaming.

"I don't know, hardly, Judge," said Daniel. "I thought I would just pay it off."

"Oh, nothing much," said Daniel, "Just a nickel or dime on the corner."

"Well, Daniel," said the judge, "I will see your dime and raise you \$20."

Daniel looked rather crestfallen for a moment; but, catching the force of the judge's remark, he quickly looked up at the judge and said, "Well, judge, I am satisfied that you have got me beat, so I'll not raise you, but I guess I will have to call you."—Law Notes.

Was This a Trained Mad Dog?

Not long ago a telephone call was received at the Flora avenue police station requesting that an officer be sent to a house to kill a dog supposedly mad. When the officer arrived he met a negro.

"There's a dog under them steps, an' he's shore mad," the negro said excitedly.

The officer fired one shot without hitting the dog. The animal started to run away.

"Gimme that gun quick. I'll kill him," the negro shouted.

Saying which he reached for the officer's revolver and got it. He then pursued the dog, aiming the revolver at it as it ran yelping down the street. The policeman waited, expecting the negro to shoot at any moment. The negro and dog—and the revolver—went round a corner and never came back. The officer has bought another revolver. He says he thinks the dog was trained.

Special Announcement

Re Credit System.

Having long felt that the present system of allowing goods on approbation, and selling on credit, was expensive to both ourselves and customers, and too far out-of-date for the progressive 20th century, we have decided to adopt the **STRICTLY CASH SYSTEM.**

On and after Feb. 1st, 1908, no Goods will be allowed on approbation unless One Pair is paid for.

In case goods do not suit we will cheerfully refund purchase money.

Among our regular credit customers were many who paid promptly whenever the account was rendered and with whom it was a great pleasure to do business. But these will easily understand that to make the cash system a success all must be treated alike, and that no one family or person can be excepted from this rule.

THE BEST FLOUR.

DAFOE'S NONESUCH
DAFOE'S MANITOBA PATENT

By numerous tests by the best Bakers the above mentioned grades have been proven to be the best Flours in the market.

When buying Flour ask for Dafoe's, and patronize your home mill, thereby producing Bran and Shorts that you can purchase cheaper than the product of the Western mills, which has to be transported thousands of miles at great expense, and usually, when it reaches you, of inferior quality.

The grocer complains if the farmer or the mechanic sends to Toronto or to outside points for an article he can get at the home store just as good, but he does not hesitate to buy Flour from mills hundreds of miles away, and sell you an inferior Flour for more money than you can purchase the home product for, every bag of which is guaranteed.

Picton Rink Collapsed.

About noon on Saturday the roof of Boulter's large skating arena in Picton collapsed from the heavy weight of snow that was resting upon it. At the time there was about twenty small boys enjoying a game of hockey on the ice. The attendant, Mr. Jos Grooms, fortunately was present at the time, when the first truss rod gave way and ordered the boys off the ice. Boy-like they saw no immediate danger, and were in no apparent haste. Mr. Grooms, realizing the gravity of the situation went out on the ice to chase them off, and in doing so, almost got caught himself. It began to crumble in at the third truss rod from the far end, and it was a race for him to clear as the roof kept tumbling down close behind him. He was unable to get out of the doorway, and took shelter close up at the end by the fence. Fortunately the roof cleared him when it came down. When he got in the dressing room he found one of the boys were missing, and it proved to be the son of Charles Hart, west Main. This little fellow evidently saw he could not reach safety with the other boys, and ran to the other end of the rink, with his hockey stick he broke

The Storm.

The storm of last week was one of the largest falls of snow experienced in this county in a number of years, the roads in all directions were blocked and business was pretty much at a standstill. The roads were scarcely rendered passable when the present storm commenced and the roads and streets are now in a much worse condition than before. The weather on Wednesday morning was the coldest Napanee has experienced in about twenty-five years. The cold was piercing. It was as bitter as one could imagine, and unprotected ears and noses were frozen in countless numbers, one thermometer registered 37 degrees below zero. The present storm has almost completely tied up the railways. The G. T. Ry. cancelled all freight trains on Wednesday evening and the B. of Q. Ry. with a snow plow took most of the day to reach Tamworth. All trains are hours behind time and mails for the country were not sent out of Napanee at all on Thursday.

Learn Dressmaking.

We teach everything from plainest shirt waist to most elaborate toilette. Lessons consist of shirtwaists, sleeves, wrappers, Children's dresses, coats, skirts, collars, &c, with all instructions for cutting and finishing. And we will teach you all this in a week, so why go to a shop and spend 6 to 9 months there. Then after you have served months there, what do you know about cutting, absolutely nothing, for you will know no more how to cut out a dress at end of year than you did the first day you went there. We have taught over 1,000 in this way within past six years, and not one has ever told us they were not satisfied. Charge for full course is only \$10.00 to be paid when through, if satisfied. The Ideal Tailor System the most perfect, is given free with this course. Hours for day class, 8.30 to 5, evening classes for those who cannot come during day 7 to 8.30. We teach at Napanee from Jan. 30th to Feb. 7th. All wishing to learn, or for full particulars, we would be pleased to have them call and have our method explained to them between 10 and 5 o'clock at Campbell House, on Wednesday, Jan. 29th. A few days trial will be given free and if course is not what we advertised it to be, students have privilege to quit. There is no pay in advance.

benefit I have received from the use of
Psychine. While travelling in New On-
tario conducting special meetings I con-
tracted a very bad cold, which gradu-
ally developed into Bronchitis of the
worst form. I was advised to try
Psychine, which I did, and after using

restored to health. I recommend this
wonderful remedy to sufferers from
Bronchitis and other troubles."

Later, "I wish to add that my voice,

had before I had bronchitis, and the
vocal chords do not tire with speaking."

This little fellow evidently saw he

out a window and escaped unhurt.
Considering the suddenness with
which it collapsed it certainly was a
miracle that no one was hurt. A
rough examination shows that the
third truss rod from the far end was
defective, and gave way under the
additional strain. The others
could not stand the extra tax, conse-
quently one after the other gave way.
The rink was valued at about \$5,000,
and is a total loss, as accidents of such
a nature are not covered by insurance.
Workmen it is said, will at once clear
away the wreckage and the rink will
be continued for the balance of the
season as an open one. No decision
has as yet been arrived at as to
whether it will be rebuilt or not.

No Home

(be it cottage, farm or

without a PIANO.

Probably nothing else in the world is the
means of so much pleasure. It is elevat-
ing, instructive, and far more entertaining
than anything else that can be placed in
the home, and has now established itself
more as a necessity than a luxury. In the
purchase of a piano it is well to use the
greatest care. The low priced instrument
is not by any means the cheapest, as after
a few years use it is likely to become an
expense and a worry to the owner. The
one piano in Canada that has earned an
international reputation for general excel-
ence of tone and durability is the Gerhard
Heintzman, which has come to be recog-
nized the world over as an instrument of
real quality. Unsolicited testimonials
from the following representative persons
ages will assist in proving the above state
ment:

The late Prince Bismark
The late President McKinley.
Lady Laurier
Emperor Mutsuhito, of Japan.

These, among a host of others, have
willingly placed on record the fact that
they are proud to possess the Gerhard
Heintzman piano.

The instrument can be seen and all par-
ticulars obtained at

Simple Home Recipe.

Get from any prescription pharmacist the following: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime. The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the Kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism. Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs. Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it. A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

CURES ECZEMA!

Dr. Agnew's Ointment can count its cured patients by the thousands.

But in no one skin disease has it so many almost marvellous cures as in cases of Eczema—this tenacious skin disorder which has baffled many a physician in seeking after a cure. One application puts out the fire, takes away the itching, stinging sensation, and after a few applications the eruptions begin to dry up, diminish, and eventually disappear entirely. The beauty of the treatment is, it leaves no scar or trace of the trouble—but a skin as soft as baby's. Cures piles in four to six nights. 35 cts. (4) Use Dr. Agnew's Pills, 10 cents.

A Philanthropist.

An earnest east side worker says that not long ago she was approached by an old gentleman who has the reputation of being something of a philanthropist with the request that he be permitted to accompany her on one of her rounds of visits. Much pleased, the worker consented. The destitute condition in which many families were found elicited expressions of deep sympathy from the old gentleman, but to his companion's surprise and regret nothing more material. Presently they came upon a small girl weeping bitterly.

"What is it, my dear?" the old gentleman inquired.

The child raised a tear stained face and pointed into a dark alleyway. "Me mudder sent me to buy some bread, an' I lost my dime in there, an' I'll git licked awful!" she sobbed.

A Sad Story of Consumption in a Canadian Town

The Local Hospital Unable to Care for the Patient, and the query is What to Do?

In a little booklet issued by the National Sanitarium Association under whose auspices has been established the Muskoka Free Hospital for Consumptives, we have the story told of a sad case of consumption.

A young woman, apparently friendless, came in on a train reaching Fort William, and immediately procured work as a domestic. A doctor was called in to examine her case, as she appeared to be a consumptive, and she was at once pronounced a bad case of tuberculosis.

She was placed in the small local hospital of the town, and everything possible for the moment is being done to help the patient.

But writing to the Secretary of the National Sanitarium Association, the Secretary of the Board of Health asks: "Is it possible to make room for this patient in the Muskoka Free Hospital for Consumptives. The local hospital is crowded for room, and there is really no place for this poor girl."

Continuing, the Fort William official adds "I may say that as far as being able to pay is concerned, she, as far as we can learn, has no friends who can afford to pay for her in an institution."

It is to meet just such cases as these that the Muskoka Free Hospital for Consumptives has been opened.

The official reports of the past year show that more than half the patients who entered the institution were absolutely free—their maintenance not costing them a single farthing. The others only paid a nominal sum ranging from \$1.50 to \$6.00 a week, only a few paying the larger amount. The average of each patient was less than 50 cents a day. The actual cost of maintenance to the institution is over \$9.00 a week so that our readers can readily see how strong a case is made out by the Trustees in their appeal to make provision for just such a patient as that from Fort William—only one of scores who are constantly seeking admission.

DEATHS.

STRATTON—At Napanee, on Thursday, Feb. 6th, 1908, Helen Blanche Collier, beloved wife of C. M. Stratton, M. D., aged 37 years. Private funeral from her late residence on Sunday at 2 o'clock.

CLOYNE

Thermometers registered forty-one degrees below zero on Thursday last. The trustees of section No. 2 have had the school remodelled and repaired and the building is now an imposing edifice with all modern equipment. H. Pettefer and R. Ferguson are busily engaged getting their sawing apparatus ready for operation. Mr. R. M. Head has returned from his trip to the villages northward. Mr. Jamieson, manager of the Dipper mines was in the village a few days ago. Miss Myers, Kingston, is the teacher in S. S. No. 2.

Lice on Cattle.

Two applications will do the work. For details and directions for using ask at Wallace's Red Cross Drug Store.

MORVEN

There was no service at either of the two churches on Sabbath. On Monday morning the roadmasters turned out with their men and opened the roads.

D. R. Hicks, who has been on the sick list, is not able to be out yet.

E. M. Smith, who got a fall on the ice and loosened one of his ribs, is able to be up and around the house, and Samuel Wilson, who fell off a load of hay, is also able to be around.

Mr. Anger's son, Clayton, and wife and little daughter, from the west, are making him a visit.

Mr. Valvus' daughter, Edith, with her husband, Perry Vanslyck, and two children, from Winnipeg, are making her parents a visit.

Mrs. Charles Chambers, of Little Creek, accompanied by her son, Draper, of Seattle, Wash., spent Saturday and Sunday with her niece, Mrs. D. R. Hicks.

J. A. Bell and wife were visiting friends at Selby over Sunday.

The annual meeting of the patrons of the Union cheese factory was held on Wednesday last. Arrangements were made for another season.

nothing more material. Presently they came upon a small girl weeping bitterly. "What is it, my dear?" the old gentleman inquired. The child raised a tear stained face and pointed into a dark alleyway. "Me mudder sent me to buy some bread, an' I lost my dime in there, an' I'll git licked awful!" she sobbed. "Poor dear!" he remarked in a tender voice, at the same time putting his hand into his vest pocket. "Don't cry. Here is a match. Perhaps you will be able to find it!"—Harper's.

Misled by Stationery.

"I wrote a note to my washerwoman about a week or two ago asking her please to bring my clothes home," said the woman. "I needed them. I happened to be in a religious concern at the time and used its paper to write the note on. Bertha came yesterday. 'I've a great notion to discharge you, Bertha,' I told her. 'Why didn't you bring me my clothes? Must I get enough things to wear a year without having them washed on your account?' 'To tell you the truth,' Bertha apologized meekly, 'you wrote on that theah religious paypah, and I didn't pay no 'tenshun to it. I jes' thought it was some o' them peepul writin' to ask me to come to prayah meetin'.' I didn't know it was youah lettah, miss, till yesterday mawnin', when I got tiahnd of seeln' it around and opened it, so that was why I didn't git heah no soonah with youah clo'es."

LEARN DRESS-MAKING BY MAIL

We want our course to be in every home in Ontario where there are ladies, so have decided to give, direct to the public our improved \$15 course in dressmaking, including our Ladies' Tailor System for wholesale price, \$5.00. As there are a large number of people, especially dressmakers, say you cannot learn by mail we will send system and first lesson (which teaches how to make a perfect fitting waist) registered to any address in Ontario. After you are satisfied you can learn, send \$5.00 and we will forward full course of lessons. Please do not send unless you wish to learn dressmaking; we are so sure anyone can learn that we guarantee to give \$500 to anyone we cannot teach. These lessons teach how to cut, fit and put together, any garment from the plainest shirt waist suit to the most elaborate dress. This is the only course in Canada that the whole family can learn by one member taking it up. We have been in business for ten years, have taught over 7,000. Beware of imitations, as some have been known to copy our ads, and even claimed where they were not known to be the inventor of this course. No adv. is genuine without our \$500.00 guarantee. Write for particulars. Address—SANDER'S DRESS-CUTTING SCHOOL, 31 Erie Street, Stratford, Ontario, Canada.

PILES

MEDICAL AUTHORITIES say that eight persons out of ten suffer at some time or other from piles. Whether the piles are bleeding, and protruding, or itching or "blind," Zam-Buk gives immediate ease.

ZAM-BUK CURED THESE.

Mr. Neil Devon, Webbwood, Ont., suffered with piles eight years. A few boxes of Zam-Buk cured him. He since says, "I have had no return of the trouble so that I know I am permanently cured."

Mr. C. B. Frost, Lennoxville, P.Q., writes: "I have proved Zam-Buk a great cure for Piles from which I suffered acutely for a long time."

Pier Dulac, West Hampton, says: "Thank you ever so much for Zam-Buk. It cured my nephew of Piles and my son of pimples in the joints of the fingers after four applications."

Feel-Rite Dyspepsia Tablets

The Best Remedy for the Positive Cure of

Dyspepsia and Indigestion.

Are recommended by everyone who uses them—they can't help it, for they immediately invigorate the stomach by letting it take a rest.

Feel-Rite Dyspepsia Tablets destroy dyspepsia, belching, that "lump of lead feeling," burning sensations, indigestion, loss of appetite and aversion to food.

Have Feel-Rite Dyspepsia Tablets handy, where you can take one after each meal. Then you will know what a blessing it is to have a good appetite and to get all the good possible out of everything you eat. You'll feel happy and good-natured. Feel-Rite Tablets cost 25c. a box and are positively superior to any other on the market. You cannot afford to be without a box of these Tablets. Get them to-day, and if you are not satisfied with the result your money will be cheerfully refunded.
